About the Event

5G is now right around the corner and is set to revolutionise almost all areas of society and business. It will mean far more than a simple increase in broadband speeds - it is set to unleash a whole plethora of new applications and use-cases, and form the backbone of a number of all-new industries.

For the full benefits of 5G to be realised, it is essential that a clear and co-ordinated strategy is put in place that encourages research, investment and innovation. This conference will offer the opportunity to take a comprehensive look at the approaches that regulators in Europe and elsewhere around the world are taking to achieve this.

With Europe now almost 18 months in to the roadmap laid out by the Commission's communication package 'Connectivity for a European Gigabit Society', it will look at the progress that has been made to date and the challenges ahead for policymakers and stakeholders. Focussing on aspects such as connectivity and future deployment and business models, it will look at the shape of a future 5G world and at where Europe sits at a global level as it looks to deliver on its target of making 5G a reality for all citizens and businesses by the end of this decade.

Exhibition details:

All stand areas are sized at 1.5m x 2m and the ceiling height in the room is 3.5m. The exhibition will be of a table top nature, not enclosed by a shell scheme.

Exhibitors may bring their own display stands but these must not extend beyond the area that has been reserved. All spaces have a display table sized approximately 1.8m x 1m included in the price.
